

## Mini Mania Day Nursery

### CENTRE SECURITY CONTROL SYSTEM

Please note that this Centre is now equipped with a State of the Art Electronic Door Control System, to provide the securest environment possible.

Each enrolled family will be provided with a SWIPE CARD with an individual pass code for entry to the Centre. Entry to the Centre will be specifically restricted to each child/parents, based on their specific days and hours. The facility is also monitored 24hours a day for theft and fire with inside and outside cameras.

There is an initial charge of \$15/card. Additional cards or replacement cards will be \$25/card.

Please understand that these cards are an integral piece of our security system and must be treated with care. Please do not circulate these cards to any non-authorized people.

Should a non-authorized person be required to pick up or drop off your child, they should use the intercom system located in the front vestibule of the building; rather than "borrow" your card(s).
