

Mini Mania Day Nursery

Web Cam Viewing Policy

Mini Mania Day Nursery has implemented a Web Cam System, with IP addressable cameras, so parents are able to put their mind at ease by viewing their children through the Internet. Parents may or may not opt to participate in this service. However, if they choose to, parents must have access to the Internet. Each parent will be assigned a "secret pass code", through which they will be able to view their child's classroom. This "secret pass code" must NOT be circulate, as it is for YOUR private viewing privilege only. Other family members, should not circulate this number. Internet viewing will be available to authorized users ONLY at any time of the day during operating hours.

The Web Cam System DOES NOT record. It is merely a service to see your child as the day is progressing.

There is an Annual, one time fee of \$50, to set up each family with a pass code.

I _____ understand that the Centre is operating a Web Cam System. Furthermore, I agree that I will NOT share my "secret pass code" with anyone, for the well being of my own children and that of others.
